Lost key application with Renault-Dacia-Nissan Vehicle's ZFPH-RH850 cable.

Renault-Dacia-Nissan cars (**Clio V 2020+, Megane 4 PH2 2021+, Captur 2020+, Sandero 2021+, Arkana 2021+, Espace 2021+, Scenic 2021+, Zoe 2021+, Juke 2021+, Qashqai 2021+, X-Trail 2021+**), we will need tZFHPhe PIN code to perform a lost key application. It has become possible to read the PIN code with our newly developed **ZFPH-RH850** cable. You can add keys to vehicles with both **Card keys** and **Blade key** systems by finding the pin code.You can obtain the pin code by removing the **HFM** and **UCH** units in the vehicle and soldering the relevant cable colors from the **ZFPH-RH850** cable to the relevant points on the unit. You can see the document showing the cable colors to be soldered by scanning the **QR** from the device menu.

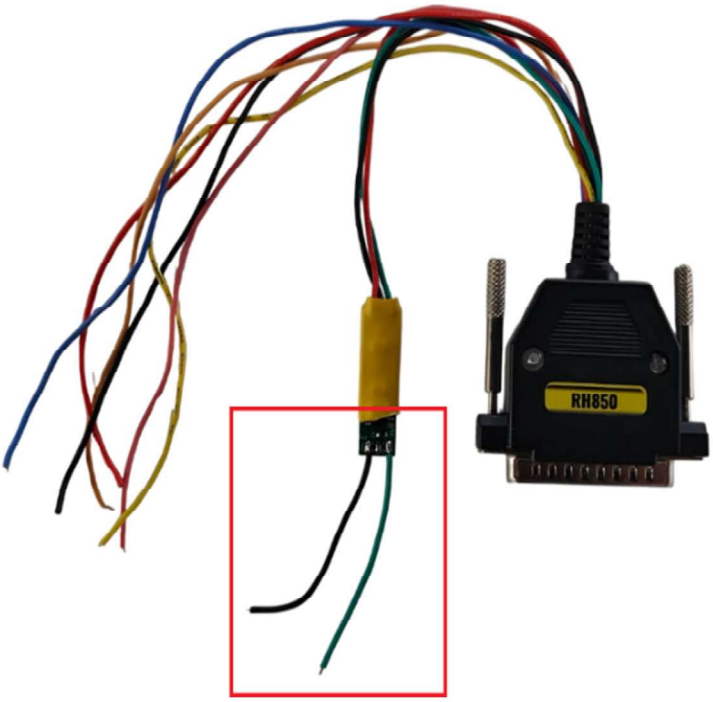

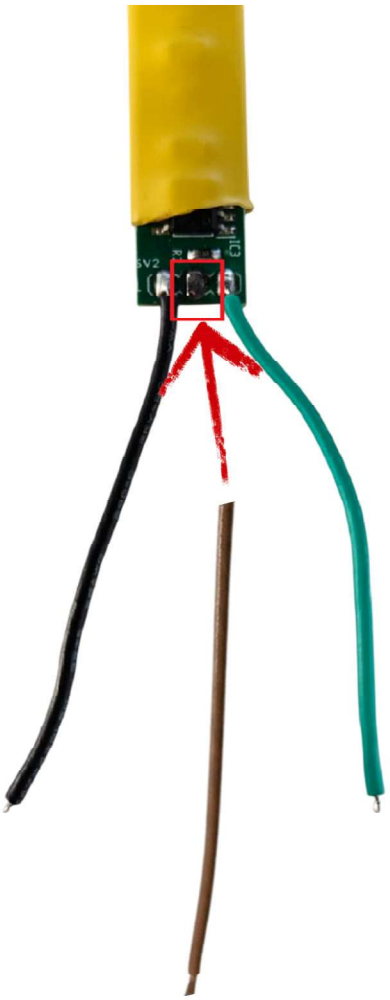

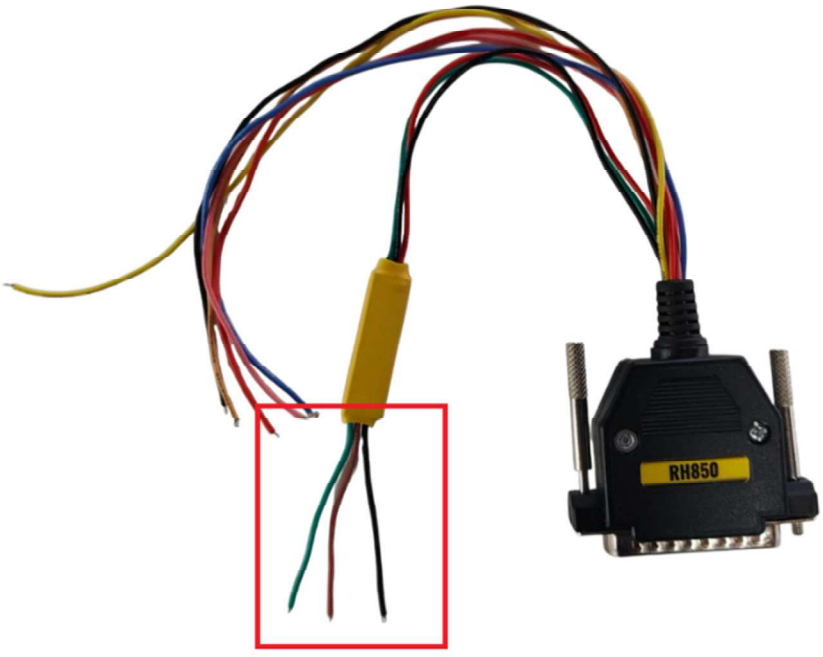

ZFPH-RH850 MODIFICATION STEPS

** If you have a previously purchased **ZFPH-RH850** two ended cable, to modify't you can solder a brown cable to it, provided it is the same size as the other cables. This will upgrade your cable.

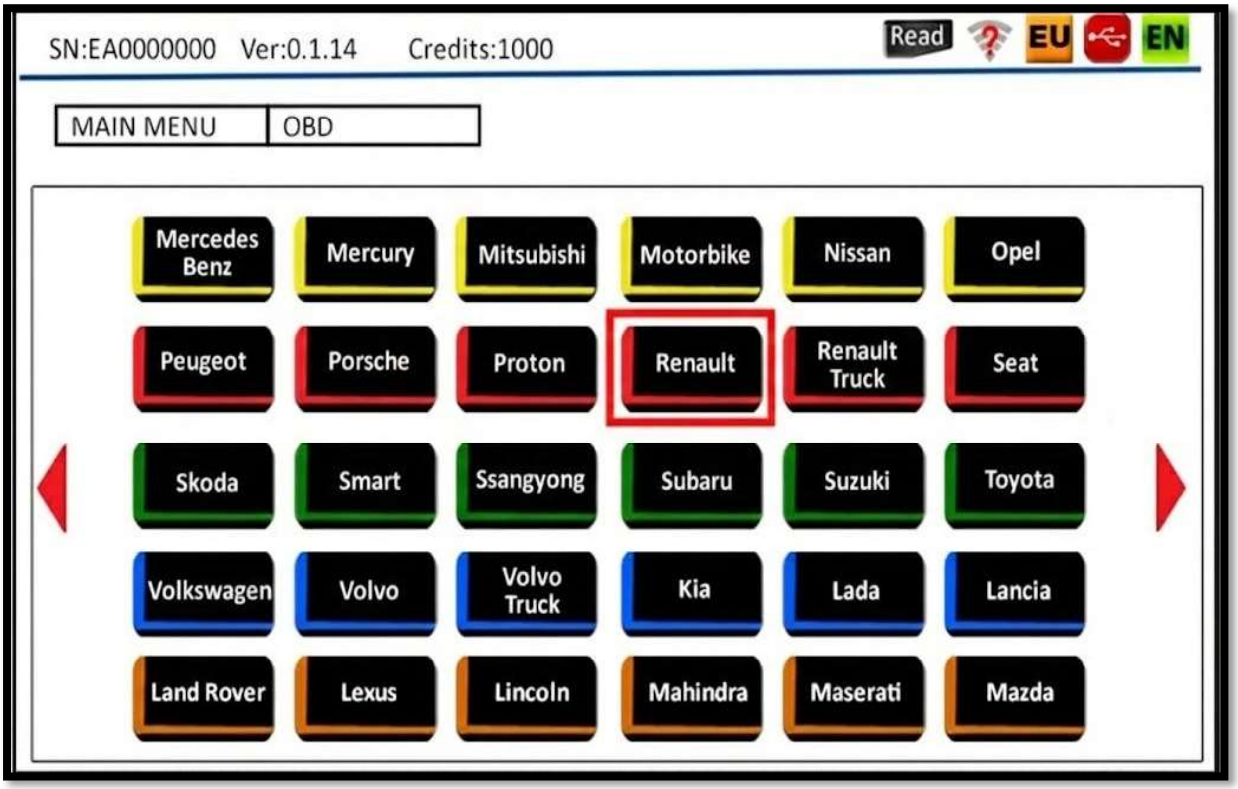

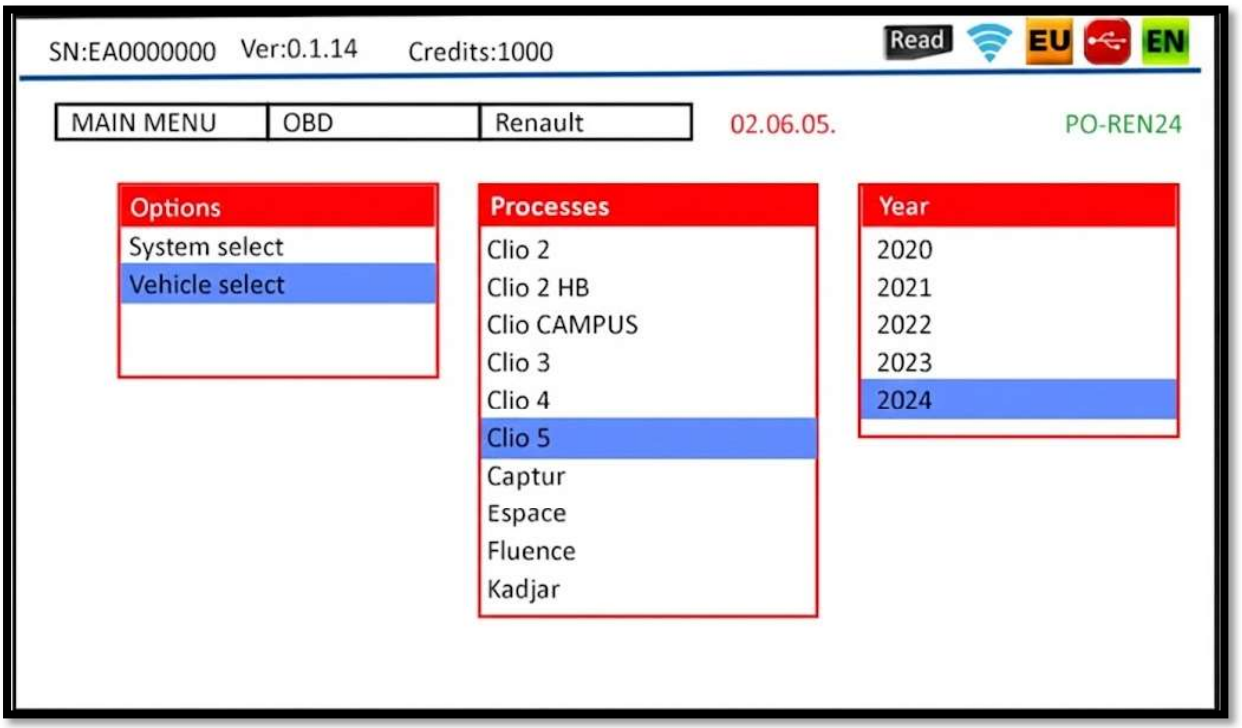

Now let's see how to do the application and proceed step by step

- Now, after the pin code finding process is completed, you will need to continue from the **"Program Card key"** menu and connect to the vehicle with the **ZFH-C18** cable.
- You can see the connection diagram of the **ZFH-C18** cable by scanning the **QR code** in the vehicle menu.
